SUMMARY

AI & ML Engineer | Data Analytics | Model Optimization
*5+ years building end-to-end AI solutions for fintech and healthcare. **Winner of Sber's DS competition**. Expertise in CV (object detection, classification), GenAI (RAG, LLMs), and production MLOps. Proven impact on business metrics in **fraud detection** and generative AI (LLMs, RAG).*

EXPERIENCE

Freelance ML Engineer | Remote | 2023–Present

- Built real-time ML models (**PyTorch, TensorFlow, Spark**) for customer behavior prediction on **autopodpiska.ru** **(+12% conversion, +8% retention**).
- Created domain-specific **LLM chatbots (Deepseek, FAISS, LangChain, Ollama, RAG, Streamlit). Examples (1, 2)**
- Developed **AI agents for medical diagnostics**.
- Designed automated ETL pipelines (**Pandas, SQL, Matplotlib**) and dashboards (**Power BI**).

ML Engineer | Sber | Moscow | Remote | 2020–2023

- Reduced FPR in **anti-fraud system** by **10%, (EFF=99,6%)** using **scikit-learn classifiers,** rule induction + **PySpark**.
- Built **credit risk models** (**XGBoost, Logistic Regression**) with **ROC AUC 0.81. (***Links*: **1, 2, 3)**
- Developed scalable **ETL pipelines (Spark, Airflow, SQL, Grafana).**
- Collaborated with engineering teams on model deployment and **CI/CD**.

Earlier roles (Business Analyst, Finance) | 2004-2019 provided strong domain expertise in data-driven processes.

PROJECTS

- **LifeMD**: Extracted symptoms from clinical notes, **Symptoma**: Real-time symptom matching **(ClinicalBERT, UMLS, BioBERT).**
- **AI HR-Recruiter:** CV-job matching system using **NLP (Python, Data Scraping, TF-IDF, Deepseek API)**
- **TEST-passer**: **RAG-based assistant** with 88% test accuracy **(Deepseek, FAISS, RAG, Streamlit).**
- **Chest X-Ray**: **CNN classifier** for COVID/pneumonia **86%** accuracy (**DS/ML, Numpy, Keras, Sklearn, Seaborn**)

EDUCATION

- **Stanford University** *CS336: Advanced Language Models* | 2024 (ongoing)
- **Skillbox** *Deep Learning* | 2024 (ongoing), *Machine Learning Engineer* | 2021–2024
- **Moscow State Technical University (BMSTU)**, *MSc in Mathematics & Statistics* | 2000–2004
- **Agrarian University of Moldova**, *BSc in Economics* | 1995–1999

SKILLS

ML/DL: Python, Pandas, NumPy, Scikit-learn PyTorch, TensorFlow, Time Series, CNN, OpenCV, LightAutoML, NLP
GenAI: LangChain, LlamaIndex, LoRA, RAG, Agents, Agno, n8n
Data & MLOps: PySpark, Airflow, PostgreSQL, FastAPI, Docker, MLflow, Streamlit,
Tools: Power BI, Matplotlib, Seaborn, FAISS, Git, Grafana, Evidently, AWS, Azure
Soft Skills: Problem-Solving | Technical Communication | Project Leadership,
Languages: Russian (native), English (B2), Romanian (B2), Turkish (B2).
